FOREWORD

In presenting this catalog, we are introducing a radical change of an industry heretofore controlled entirely by European manufacturers.

We bring to you a line of Crystalware entirely and exclusively designed and manufactured by us in America.

This line has been a revelation to our customers, who have formerly handled the foreign manufactured product, for the following reasons:

We can make immediate shipment of all items shown herein, as we carry a large complete stock of all the parts.

Any part, if broken can be replaced immediately.

All metal parts are Standard American made, thereby assuring perfect fitting of standard wiring equipment and are chromium plated instead of the usual nickle finish, assuring durability and finer appearance.

Our product is furnished almost entirely assembled. All glass parts perfectly checked, eliminating the hardships experienced with foreign manufactured merchandise.

Any design shown herein can be interchanged or reconstructed to meet the individual taste or idea of your client.

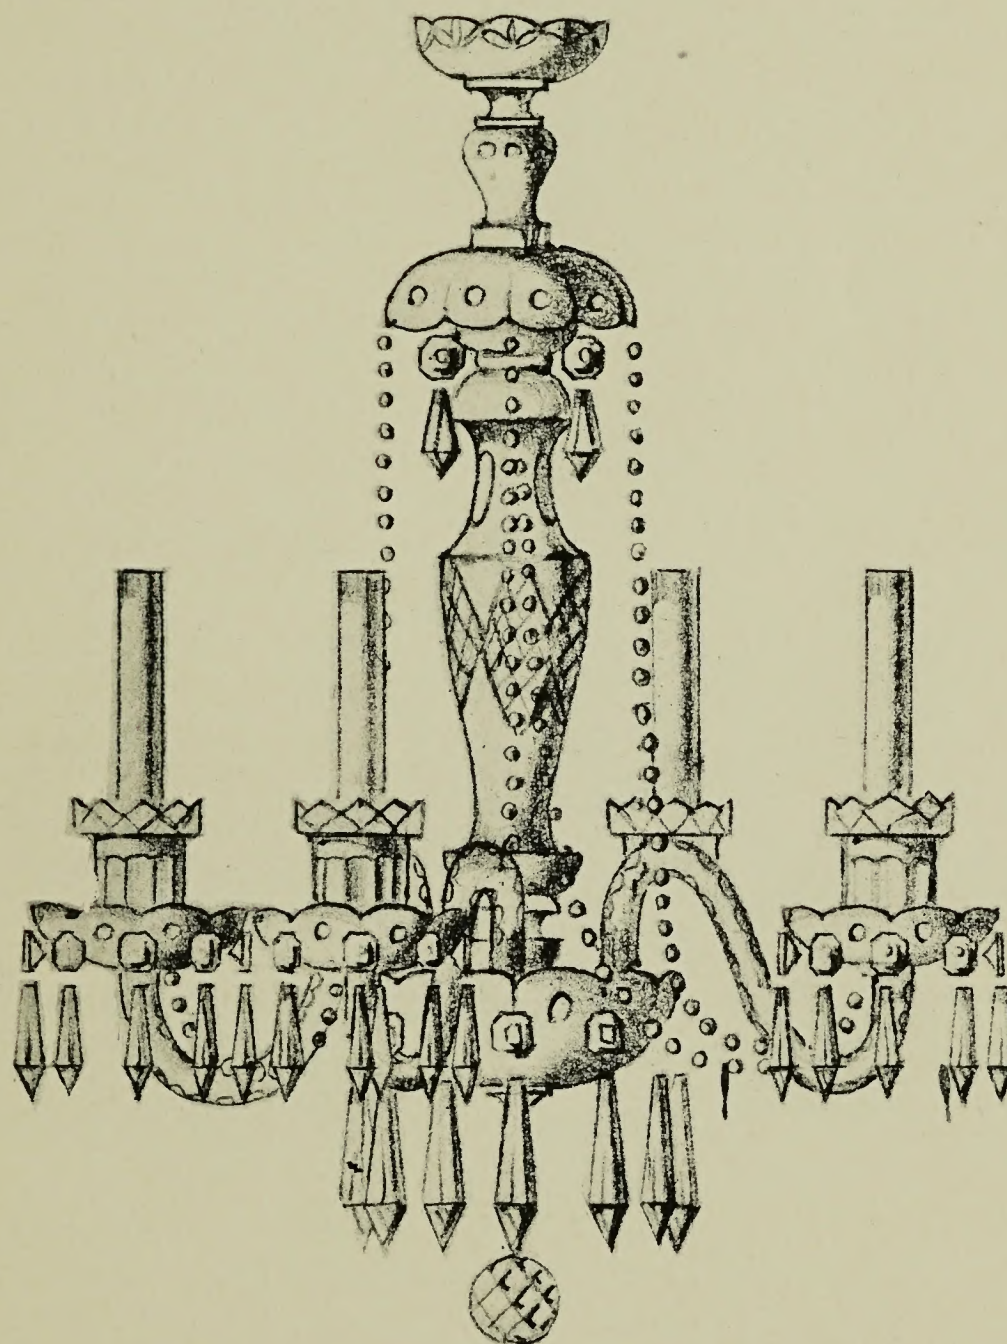

We use only the finest quality wood polished cut crystal, made for us exclusively by one of the finest glass cutters in Czecho-Slovakia.

We are also equipped to take care of any of your special crystal requirements in the form of bead work, garlands, chains, etc.

We can furnish special crystal chandeliers and wall brackets in any size, shape or style, to meet your specifications.

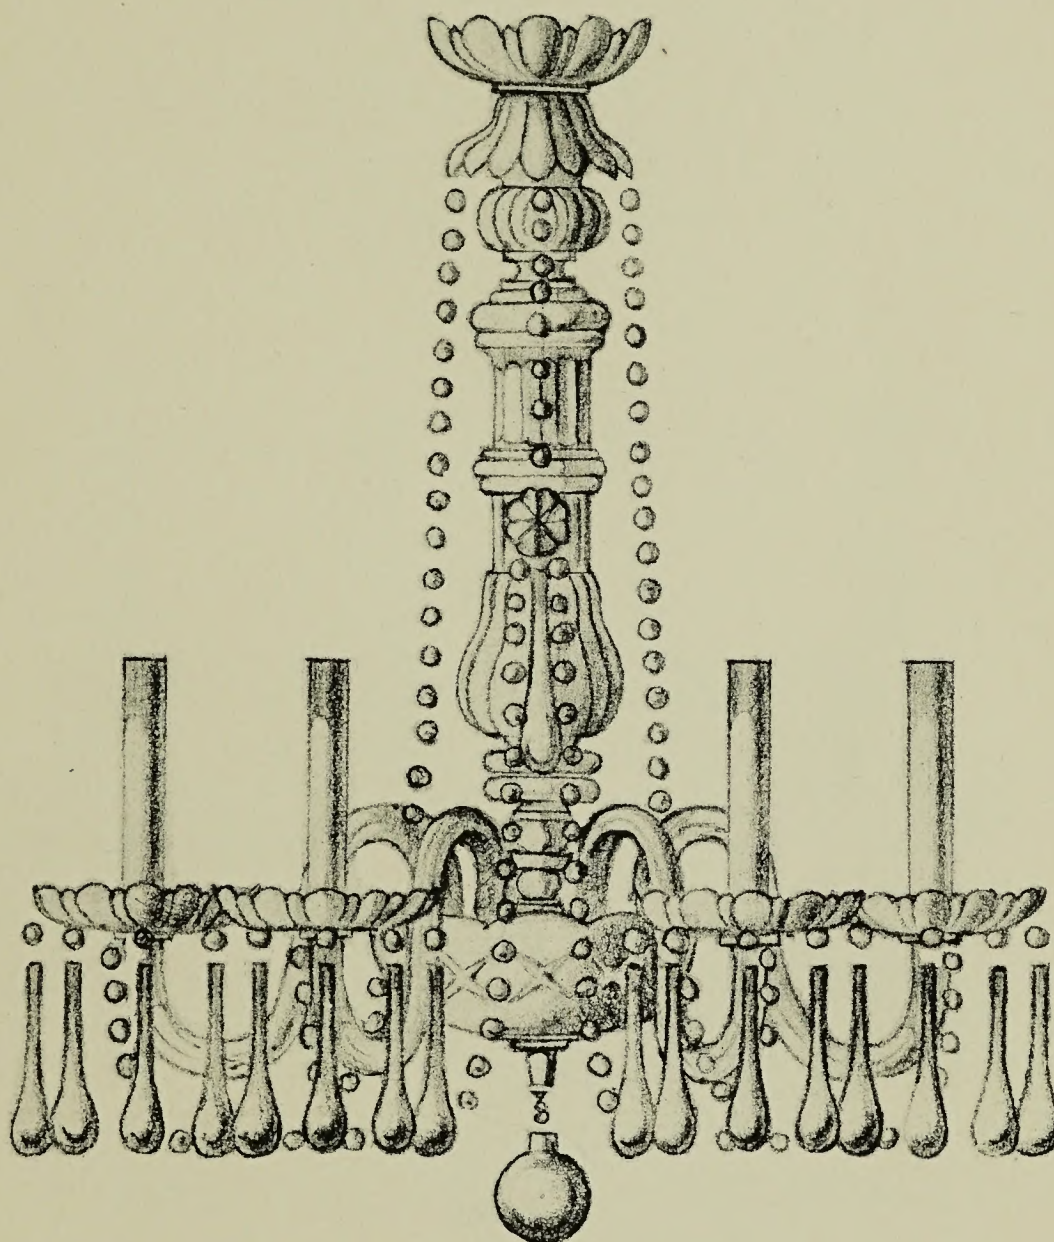

I. ALBERT CO.
